skills

Web Development

- Currently enhancing skills in web development with hands-on practice in HTML, CSS, and React; building responsive, user-friendly websites and web apps.

Programming Languages

- Familiar with programming languages like Python, Java, and C++; able to write codes, solve problems, and build projects.

Communication and Team Collaboration

- Exhibited strong communication and team collaboration skills while working with project team members to plan, develop, and deliver successful outcomes.

Database Management:

- Proficient in Database Management concepts with hands-on experience in designing, creating, and querying relational databases using SQL and MySQL; familiar with Normalization, ER modeling, and joins for efficient data handling.

Education

SAGAR PUBLIC SCHOOL, SAKET NAGAR BHOPAL

CLASS 10 : Obtained **93.4%** in boards

CLASS 12 : Obtained **79%** in boards

VIT Bhopal University, Bhopal, India
Bachelor of Technology (B.Tech)

Month Year – 2023 -2027

- **Specialization:** Computer Science and Engineering core Branch
- **Current CGPA:** 8.34 CGPA
- **Relevant Courses:** Data Structures, DBMS, OOP, Operating Systems
- **Coursework Projects:** Banking System in Java – Implemented using OOP principles
- **Technical Skills:** Python, SQL, HTML, CSS
- **Tools/Technologies:** Git, VS Code
- Member of Linux Club.
- **Attended workshop on Artificial Intelligence**
 - by CII-HP Centre for AI.
- Completed **NPTEL course on Machine Learning.**

Experience

Transport Scheduling System

- Developed a **full-stack web application** for **scheduling transport services** with real-time location tracking and role-based access.
- **Frontend:** Built using HTML, CSS, JavaScript, and React.js for dynamic, user-friendly interfaces.
- **Backend:** Developed with Node.js and Express.js to handle user authentication, request management, and API integrations.
- **Database:** Used MongoDB for storing user and transporter information.
- Integrated **Google Maps API** for **real-time location** tracking and delivery address selection.
- Implemented **JWT** for **secure user login and authentication.**
- **RESTful APIs** used for seamless client-server communication.
