Education

VIT Bhopal University

B.Tech in Computer Science

Shore M.P.

June 2023 – May 2027

- **CGPA:** 8.34
- **Proficiency :** Data science , Machine Learning , Data Structures & Algorithms, HTML, CSS, JavaScript , React , SpringBoot, Statistics and Probability.

Projects

Transport Scheduling System

June 2023 – present

Developed a full-stack web application for scheduling transport services with real-time location tracking and role-based access.

- Developed a full-stack web application using HTML, CSS, JavaScript, React.js, Node.js, and Express.js, ensuring a dynamic and user-friendly interface.
- Designed and managed backend services with MongoDB, implementing JWT-based authentication and RESTful APIs for secure and efficient data handling.
- Integrated Google Maps API for real-time location tracking and optimized delivery address selection.

Capstone Projects

May 2024

◦ AI-Powered Resume Screening Tool

Built an AI-based resume screening system using Python, NLP (spaCy, TF-IDF) and cosine similarity to match candidates with job descriptions. Developed an interactive UI using Streamlit for easy resume analysis and ranking.

◦ Face Mask Detection System

Designed a real-time face mask detection model using CNN (TensorFlow/Keras) and OpenCV for video/image processing. Achieved accurate classification of masked/unmasked faces using deep learning techniques.

◦ Image Caption Generator

Built an image captioning system using CNN + RNN/LSTM architecture for generating textual descriptions of images. Used TensorFlow/Keras and pre-trained models for feature extraction.

Experience

Data Science Club | Core Member

Sept 2025 – present

Contributed to planning and execution of **Neural Nexus** (technical event). Organized a data science quiz, managing questions and participant . Co-hosted a mini hackathon, assisted in designing problem statements and datasets for hackathon challenges. Developed leadership, teamwork, and event management skills through active involvement.

Skills

- **Languages:** Java, Python, SQL, JavaScript, Swift
- **Frameworks & Libraries:** Springboot, React.js, Node.js, Express.js
- **Tools & Technologies:** AWS, Docker, Kubernetes, Git, MongoDB, REST APIs, Streamlit

Certifications

- **NPTEL** - Introduction to Machine Learning + Marketing Analytics
- **Coursera** - The Bits and Bytes of Computer Networking
- **HP** - AI Immersion Program
